

## What makes FPC-55 different from general projectors? And what that means to end users?

We are the only REAL High-Definition (1280x768) LED Projector  
manufacturer in the worldwide market.

(Famous Japan Investigation Company totally agrees it. June 5, 2010).

**World's smallest and true HD LED projector.**

**Our FPC-55 is equal to traditional HD projector plus 12 lamps.**

**Save money, save time & more conveniences**

**It makes professional users feel super-value.**

- Its mobility fulfills HD mobile Cinema and HD Mobile presentation.
- Users can tell the Meticulous and colorful Image obviously by using our HD projector to watch the videos from Blu-ray player or PS3. They even have the same feeling in presentation projection.
- Current HD projectors are bulky which need lamp replacement.
- Users spend US\$1,000 can buy projectors which are either traditional bulky projectors or project inferior color images.

### Product features:
