

Bluetooth v4.2 Mini Amplifier

Model No. VS-1880

Product Description:

This Bluetooth Mini AMP supports the aptX®-HD codec which offers high sound quality wireless playback capability via Bluetooth® hardware, also supports USB audio input.

This Bluetooth Mini AMP can connect to a Bluetooth music player and your mobile phone separately and automatically mutes the music when a phone call is answered on the headset. It mutes the music and switch to the phone mode while a call is answered. So you will not miss any important phone calls while you were driving or listening to the music.

This Bluetooth Mini AMP provides friendly user's interface and all operations can be done in three buttons. It is designed to suppress noise, eliminate echo and produce full duplex sound for crystal clear calls. This Headset model is Bluetooth Standard 4.2 compliant. It supports both headset and hands-free profile for telephone communication and two Bluetooth profiles for audio: A2DP and AVRCP.
