

UV-W1586

UV Spa Cell Phone Sterilizer with Wireless Charger

Cell phone not included

You might be surprised to learn that our phones are 10x dirtier than the average toilet seat.

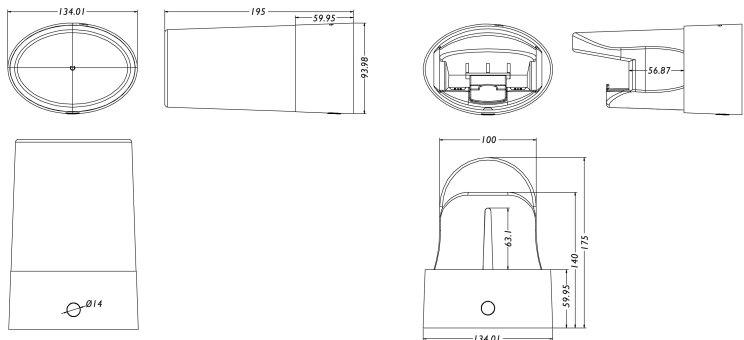

Due to our constant use of mobile phones, these devices become a hotbed for bacteria and virus.

However, with the right sterilizer, we can keep them cleaner. The Digimore UV Spa is specially designed to fit all cell phones below 6.2 inches.

Thanks to built-in 3 UV-C Lamps and 10W fast wireless charger function, UV Spa not only kills 99.9% of bacteria, but also provides fast-speed charging for mobile phones. Furthermore, upright design saves limited desk space.

Specification		
UV Sterilizer		
UV Lamp	3x UV-C lamps	
UV Switch (LED in Blue)	One-touch switch enter disinfection mode and automatically power off after 15 minutes	
Input Power	5V DC, 800mA	
Size of Disinfection Room	Fit all cell phones below 6.2 inch	
Wireless Charger		
Wireless Charger Output	5W/ 10W auto detection (for 10W, 5V/2A adapter is required)	
Input Power	5VDC/2A or 9VDC/1.6A	
Protection	Over voltage (20VDC), Low voltage (<4.1V), Over current (2A), Over temperature (60°C)
