

Larkooler Extreme Performance G1/4" Liquid Cooling Kit

Model : KU3-241

Product Description

Teamed up with professional and experienced PC cooling experts, Larkooler wants to create an innovative cooling solution for all PC users. The spirit of Larkooler is : Silent + Cooling + Artistic. We hope to bring tremendous fun of watercooling to all desktop PC users.

Producing ultimate thermal solution is our job and our purpose is to make watercooling products affordable for everyone.

To meet the demands for PC enthusiasts, Larkooler comes out high-end G1/4" liquid cooling kits. Not just bigger pump and tubing, Larkooler new G1/4" kits will reach the extreme of PC watercooling. KU3-241 will set the benchmark for PC water cooling. The complete kit includes a high quality universal CPU water block, a high-flow pump, an acrylic reservoir, a 240mm radiator, dual 120mm fans, a bottle of 500ml coolant and ID 3/8" tubes.

Features

- Very High Performance CPU Liquid Cooling
- Supports INTEL LGA775/LGA1156/LGA1366
- Supports AMD AM3/AM2/AM2+/K8
- G1/4" Fittings – 3/8" ID Barb
- Micro-Fin thermal solution adapted results in outstanding heat dispersion.
- The universal type strengthened backplate not only prevents motherboard distortion but also has high compatibility for all kinds of motherboards
- Easy installation due to 2-way tubing design which also enables upgrade to series connection of more water blocks
- Highly polished base to ensure excellent surface contact with heat source
- G1/4" Fitting with 3/8" ID tubing design provides high performance heat dispersing at low noise
- Easy installation design and back mounting bracket let DIYers enjoy DIY
- Specially designed bolts and nuts to prevent tube's looseness and coolant leakage
- Ceramic-Bearing Pumps with super flow rates and high reliability bring high performance & Steady and silent working
- Radiator can be mounted on back of case or top of case
- Special Inlet design decreases bubbles in the reservoir
- Dual 5.25" Bay Mounting for Pump/Reservoir Combo for options

SPECIFICATION

Pump

Rated Voltage: DC 12V

Power Consumption: 10.8W (MAX)

Flow Rate: 450 Liters/Hour

Water Lift: 2.1 Meters/H₂O

Optional Fitting: Dual 5.25" Bay Mounting for Pump/Reservoir Combo

Reservoir

Dimension: 75 × 100 × 35 (mm)

Capacity : 140 ml

Material: Acrylic

Optional Fitting: Dual 5.25" Bay Mounting for Pump/Reservoir Combo

Radiator & Fan

Material: Copper tubes with aluminum fins

Dimension: 310×124×35(mm)

Weight: 680g

Rated Voltage: DC 12V

Input Current: 0.25A ; 0.15A

Speed: 1800RPM(12V) ; 1200RPM(7V)

Bearing Type: Sleeve

Radiator Color Options: Black / Silver / Golden

CPU Water Block

Material: Pure Copper

Dimension: 60(L) X 54(W) X 14(H)mm

Fitting: G1/4" Thread - 3/8" ID Barb Connector

Applications: Intel LGA 1366 / LGA 1156 / LGA 775
AMD AM3 / AM2 / AM2+ / K8
